BOARD DIVERSITY POLICY

Purpose

This Board Diversity Policy (the “Policy”) sets out the approach of TerraHash Energy LLC (the “Company”) to achieving and maintaining an appropriately diverse board of directors (the “Board”) in support of effective governance, sound decision-making and the Company’s long-term development.

Vision

The Company recognises that a Board comprising directors with diverse backgrounds, perspectives and experience can strengthen the quality of Board deliberations, enhance oversight and improve the Board’s ability to understand the opportunities and risks facing the Company across its energy, infrastructure, technology and investment activities.

Policy Statement

The Company considers Board diversity to be an important element of balanced and sustainable corporate development. In reviewing Board composition and identifying potential director candidates, the Company will consider a broad range of factors, including but not limited to gender, age, cultural and geographic background, educational background, professional and industry experience, financial and governance expertise, technical knowledge, independence, skills and length of service. All Board appointments will be made on merit against objective criteria, while giving appropriate consideration to the benefits of diversity and to the skills and perspectives required by the Board at the relevant time.

Measurable Objectives

The Corporate Governance and Nomination Committee will support the Board in establishing and reviewing measurable objectives for implementing this Policy. Such objectives may include maintaining an appropriate mix of executive and independent directors, strengthening diversity of professional disciplines and geographic experience, broadening representation across relevant backgrounds, and maintaining a succession pipeline capable of supporting the future needs of the Board. The selection of any individual candidate will remain based on merit, suitability and the contribution that the candidate is expected to make to the Board as a whole.

Monitoring and Reporting

The Corporate Governance and Nomination Committee will monitor the implementation of this Policy and periodically review the composition of the Board from a diversity perspective. Where the Company publishes an annual report, corporate governance report or other comparable governance disclosure, the Company may describe the Board's composition, the objectives established under this Policy and progress made toward those objectives, subject to applicable law, confidentiality obligations and disclosure requirements.

Review of this Policy

The Corporate Governance and Nomination Committee will review this Policy as appropriate to ensure that it remains effective and aligned with the Company's governance needs. Any material revision recommended by the Committee will be submitted to the Board for consideration and, where required, approval.

Disclosure of this Policy

The current public version of this Policy will be made available on the Company's website at www.terrahashenergy.com for public information.

The Company may also summarise this Policy, its measurable objectives and relevant progress in its annual, governance or investor-relations materials where the Board considers such disclosure appropriate.
